IMPERIAL HERITAGE SCHOOL

SECTOR-102, GURUGRAM

HOLIDAY HOMEWORK

GRADE I

Summer skies and brighter days,
Time for fun in different ways.
Books to read and games to play,
New things to learn every day.
Explore your world, create, and grow,
There's so much more you'll get to know!

Dear Parents,

The long-awaited summer vacation is finally here! This is a season to relax, explore, and enjoy special moments with your little one. While play and rest are essential, the break also provides beautiful opportunities to nurture creativity, curiosity, and care.Let's remember—what truly stays with children are not the things we buy for them, but the **time we spend**, the lessons we share, and the stories we tell. Use this time to build joyful memories, strengthen bonds, and nurture small acts of responsibility.

Here are some thoughtful ways to make this break both **fun and fruitful**:

- Include yoga, stretching, dance, or any physical activity in their daily routine.
- Encourage your child to keep a **"Summer Journal"**: they can draw, write simple sentences, or paste pictures about their day.Add funny family stories, memories, or a "What I liked today" section.
- Play board games like Snakes & Ladders or Memory Match—great for counting and focus!
- Set up pretend play: post office, vegetable market, or picnic day.
- Create obstacle courses using cushions or buckets—great for motor skills!

During the holidays, encourage your child to maintain a regular practice routine. Prepare two simple practice notebooks—one for **English and Hindi handwriting** and the other for **Math sums**. A little bit of daily writing and number work will help keep their skills sharp and build confidence. Remind them to work neatly and independently, completing one or two pages each day.

The theme for the Holiday Homework is **SPLASH OF SUMMER.**

- All homework must be **handwritten**, decorated neatly, and submitted in a creative folder with the **name and class** mentioned.
- Drawings and original work by the child are valued the most, with parental guidance.

School will reopen on 1st July
Holiday Homework to be submitted on 5th July

The Holiday Homework will be assessed on:

- Idea and content
- Presentation
- Ability to explain or answer
- Innovativeness
- Creativity

Let this summer be filled with sunshine, giggles, and stories that your child will remember for a lifetime.

Warmest regards,

Ms. Neelu Sharma
Principal

ENGLISH

Summer holidays are a wonderful time for relaxation and fun, but they also provide an opportunity to enhance your English skills in a creative way. During this break, you can engage in exciting activities like reading storybooks to discover new words, writing a short paragraph about your favorite summer day, and finding summer-related words in books and signs around you. Expressing yourself through picture descriptions and daily English conversations with family will help strengthen your vocabulary and confidence. These simple yet enjoyable tasks ensure that learning continues even while you enjoy the warmth and joy of summer!

Activity 1: Poster of rainbow Story

Objective: The Rainbow Story Writing activity is designed to enhance creativity, language development, and colour recognition in young learners. By integrating colours into storytelling, students can expand their vocabulary while making connections between colours and real-world objects

✂ Materials Required:

- A3 white sheet
- Pencil colour or sketch pens

Instructions:-

1. **Think about summer!** Which colours remind you of sunny days? Maybe bright yellow like the sun, blue like the sky, or green like the trees.
2. **Make a colorful poster!** Draw and colour a picture that shows summer colors. You can draw a big shining sun, a beach, ice cream, or anything that reminds you of summer.
3. **Tell a story!** Look at your poster and imagine a fun summer adventure. Who is in your picture? What happens? Prepare a short and simple story about your poster.
4. **Share with your friends!** Show your poster to the class and narrate your summer rainbow story once your school reopens.

Activity 2: Summer Ice Cream Shop – Common Noun vs. Proper Noun!

Objective: Learn the difference between common noun and

proper noun in a playful way!

Intro: Welcome to your SUMMER ICE CREAM SHOP!

You are the shop owner, and kids are coming in for delicious summer treats. But wait! Some brands can be identified as proper noun (Cornetto, Kulfi, Gelato Messina, Baskin-Robbin, Magnum, Mother Dairy, Amul), and others can be common noun (cone, bar, candy, popsicle, toppings, scoop).

Sort your menu correctly!

✂ Materials Required:

- A3 sheet (for menu board)
- A4 coloured sheets (for flavour)
- Crayons and sketch pens
- Glue and stickers

Instructions:-
Design a summer snack shop menu and sort the nouns into two lists:
Common nouns (cone, bar, candy, popsicle, toppings, scoop)
Proper nouns (*Cornetto, Kulfi, Gelato Messina, Baskin-Robbin, Magnum, Mother Dairy, Amul*)

Activity 3: Reading Adventure – Summer Stories

Objective: Introduce children to summer-themed books, for joyful reading!

Intro: Ahoy, young readers! Summer is the perfect time to dive into colourful stories! Read these fun books about sunshine, rainbow, and enjoy the happy summer adventures.

Task:- Once the school reopens narrate the story in the class.

Reading Book List:

- *Summer Days and Nights* – Wong Herbert Yee (https://images.app.goo.gl/pw1YEF6FejGkhdD1A)
- *The Red Raincoat* – Kiran Kasturia https://storyweaver.org.in/en/stories/369-the-red-raincoat
- The Butterfly smile -https://storyweaver.org.in/en/stories/11627-a-butterfly-smile

MATH

Summer holidays are a great time to explore Math in fun ways! Instead of solving problems, students can engage in exciting activities that build thinking skills while keeping them entertained. They can do a Number Hunt, finding numbers on clocks, books, and calendars, or try Math in Nature, counting flower petals, insect legs, or tree leaves. DIY Shape Art lets them make pictures using different geometric shapes, while a Cooking Challenge helps them learn fractions by measuring ingredients.

Activity 1: Summer Math Fun – Calendar for Water Tracker

Objective: Practice basic numbers counting while tracking how hydrated you are.

Intro:-Summer season is the time when everyone loves to have cool colourful drinks and keep ones self energized. This time make this activity interesting by tracking how many glasses of water /Juice

you drink though out the day.

✂ Materials Required:

- A3 sheet
- Pencil & eraser
- Sketch pens and crayons

Instructions:

- Make your personalized calendar for the month of June 2025.
- Draw the number of glasses you drink on each day.
- Colour it with blue if you had water, colour it yellow/ orange if you had lemonade juice. Feel free to make your calendar attractive.

Activity 2: Summer Ice Cube Addition

Objective: Practice addition with the help of colourful ice cubes.

✂ Materials Required:

- Yellow, red, blue, and green food colour
- Ice-tray
- Water
- 3 bowl

Instructions:-

Freeze water with food colouring in yellow, orange, and blue.

Add ice cubes together (e.g., 2 yellow cubes + 3 orange cubes =5).

Watch them melt and talk about mixing colours!

Task:-Take pictures of you doing the activity in different stages and paste them on an A4 Sheet.

Activity 3: Tick-Tock Tropicana – A playful mix of watermelon vibes and tropical energy.

Objective: This fun summer craft will encourage learners to explore time-related concepts while expressing their creativity through a vibrant, fruit-inspired design

Materials Required:-

✅ Cardboard (for the clock base)
✅ Red, green, and black acrylic paints (for the watermelon colours)
✅ Paintbrushes
✅ Glue or tape
✅ Scissors
✅ Ruler and pencil

- Cut a large circle out of cardboard (around 25–30 cm diameter).
- Sketch an outline of a watermelon on the cardboard—the red flesh inside, green rind outside, and small black seeds scattered around.
- Paint the inner section red for the watermelon flesh.
- Paint a thin white border around the edge to mimic the watermelon's natural inner layer.
- Paint the outermost ring green to resemble the watermelon's rind.
- Dot small black seeds randomly on the red section to make it look realistic.
- Mark the center of the circle and carefully poke a small hole through it using a craft knife.
- Attach the hour, minute, and second hands to the front side.
- Use stickers, paint, or small foam numbers to mark the hours around the clock face.
- You can even get creative and use watermelon seeds or black dots instead of traditional numbers!
- Let everything dry completely before using your clock
- Set the correct time and admire your fruity summer masterpiece!

EVS:-

Activity 1:- Summer Ice Pops Experiment!

Objective: Teach kids simple science by making real fruit popsicles at home!

Instructions:

1. Blend mango or watermelon juice
2. Pour it into small cups and freeze! ❄
3. Enjoy a cool summer treat while learning about freezing liquids!
4. Make a Blog of making your customized Popsicle and share the video to your class teacher on Teams.

Activity 2:- Superstars in Action: Create and Role-Play a Community Helper's Workstation!

Objective: This activity aims to help students develop an understanding of different community helpers by engaging in a hands-on creative project followed by a role-playing experience.

Instructions:-

Step 1: Choose a Community Helper

- Select a profession (doctor, fire fighter, police officer, baker, etc.).
- Have a short discussion with your parent about the role of you have chosen.

community helper.

Examples:

- A doctor's office might include a toy stethoscope, medical charts, and patient seating.
- A police station could have a desk with a notebook, pretend walkie-talkie, and badge.
- A bakery station might include paper cupcakes and a mixing bowl.
- Students can decorate their workstation with signs, labels, and accessories related to their role.
- Encourage creativity with additional mini-tools or handmade badges to make it feel realistic
- Each student will prepare a short role play stepping into the character as their selected community helper and present it in the class.

Activity 3:- Bubble Mushroom Garden

Materials Needed

- Bubble wrap
- Scissors
- A4 sheet
- Paintbrush
- Green paint (for grass)
- Red and white paint (for mushroom)
- Ear buds (for decoration)
- Glue

Instructions

1. **Shape the Mushroom** – Cut the bubble wrap into a mushroom shape. You can make a round top and a small stem.
2. **Create the Grass Background** – Use a brush to paint grass strokes on the A4 sheet. Let it dry.
3. **Attach the Mushroom** – Paste the bubble wrap mushroom onto the painted A4 sheet using glue.
4. **Colour the Mushroom** – Paint the mushroom top red and the stem white. Let it dry.
5. **Decorate with Red Dots** – Dip an ear bud in white paint and gently dab dots onto the red mushroom top for a realistic look.
6. **Final Touches** – Allow everything to dry completely before displaying your artwork! **https://www.facebook.com/share/r/1ETHvzuUn2/?mibextid=D5vuiz**

Project 1 Discover Telangana

Creating a Telangana brochure is a fun and engaging project! Here's how you can design it: https://youtu.be/rnAmi9v2DPw?si=DMdtmz6PQnVBe9Ew (For Ref)

Objective:- This activity is designed to support early learners in multiple ways, enhancing their cognitive, social, and creative development while making learning fun!

- A4 sheet (folded like a booklet)
- Colourful sketch pens and crayons
- Glue and scissors
- Stickers and decorative items
- Pictures of Telangana's famous places, food, dance, and attire

Instructions:-

- Title: Discover **Telangana**!
- Famous dance
- Traditional dress
- Delicious **Telangana** Food
- Fun facts about **Telangana**
- Colour and decorate your brochure!

HINDI

कार्य–1:शब्द लड़ी (गरमी के रंग)

A-4 शीट पर शब्द लड़ी को आ की मात्रा वाले दस नये शब्दों के साथ पूरा करे-

शब्द लड़ी (गरमी के रंग)

लाल	पीला	नीला	सफ़ेद
⇩	⇩	⇩	⇩
आग	आम	आसमान	कागज़
⇩	⇩	⇩	⇩
गमला	मटका	नाक	जाल

कार्य–2:सहायक सामग्री के साथ (आइसक्रीम ,शिकंजी) पर कोई पाँच लाइने याद करें |

कक्षा में परिचय सहित सुनी जाएगी |

कार्य–3:मेरा परिचय

मेरा नाम ..... है |

मैं ..... कक्षा में पढ़ता/ पढ़ती हूँ |

मेरे स्कूल का नाम ..... है |

मैं ..... वर्ष का/की हूँ |

मैं गुरुग्राम ..... में रहता/ रहती हूँ |

मेरा प्रिय फल .....है |

मुझे ..... खेलना पसंद है |

ICT

Collage of different types of Computers

Objective: Students will create a collage of different types of computers and technology using images.

Materials Needed:

- A3 sheet
- Old magazines, newspapers, or printed images of computers (laptop, desktop, tablet, smartphone)
- Scissors
- Glue stick or tape
- Crayons/ markers (optional, for decoration)

Instructions:

1.**Cut Out Pictures**: Find and cut out pictures of different types of computers. This could include:

- Desktop computers
- Laptop computers
- Tablets
- Smartphones
- Smartwatches

2. **Arrange Your Pictures:** Place your cut-out pictures on the A3-sized paper. You can arrange them in any way you like, but try to make sure you have a variety of computers in your collage.

3. **Glue the Pictures:** Once you're happy with the arrangement, glue or tape the pictures in place.

4. **Decorate (Optional):** Use crayons or markers to draw fun designs around your collage, like adding a computer screen with a picture on it or adding a background.

5. **Write a Title**: At the top of your collage, write a title: **My Computer Collage** or **Types of Computers.**
